Foreword

The period covered by the 1984 Terrapin-those days between February, 1983, and February, 1984-will be remembered as any other: a time of love and laughter, of frailties and fears, of those things lost, and those things gained.

But here in these pages, we hope this time will be remembered as something more-as a time when people came to realize how good life can be, and saw that the future will ask much of us, but it will be ours.

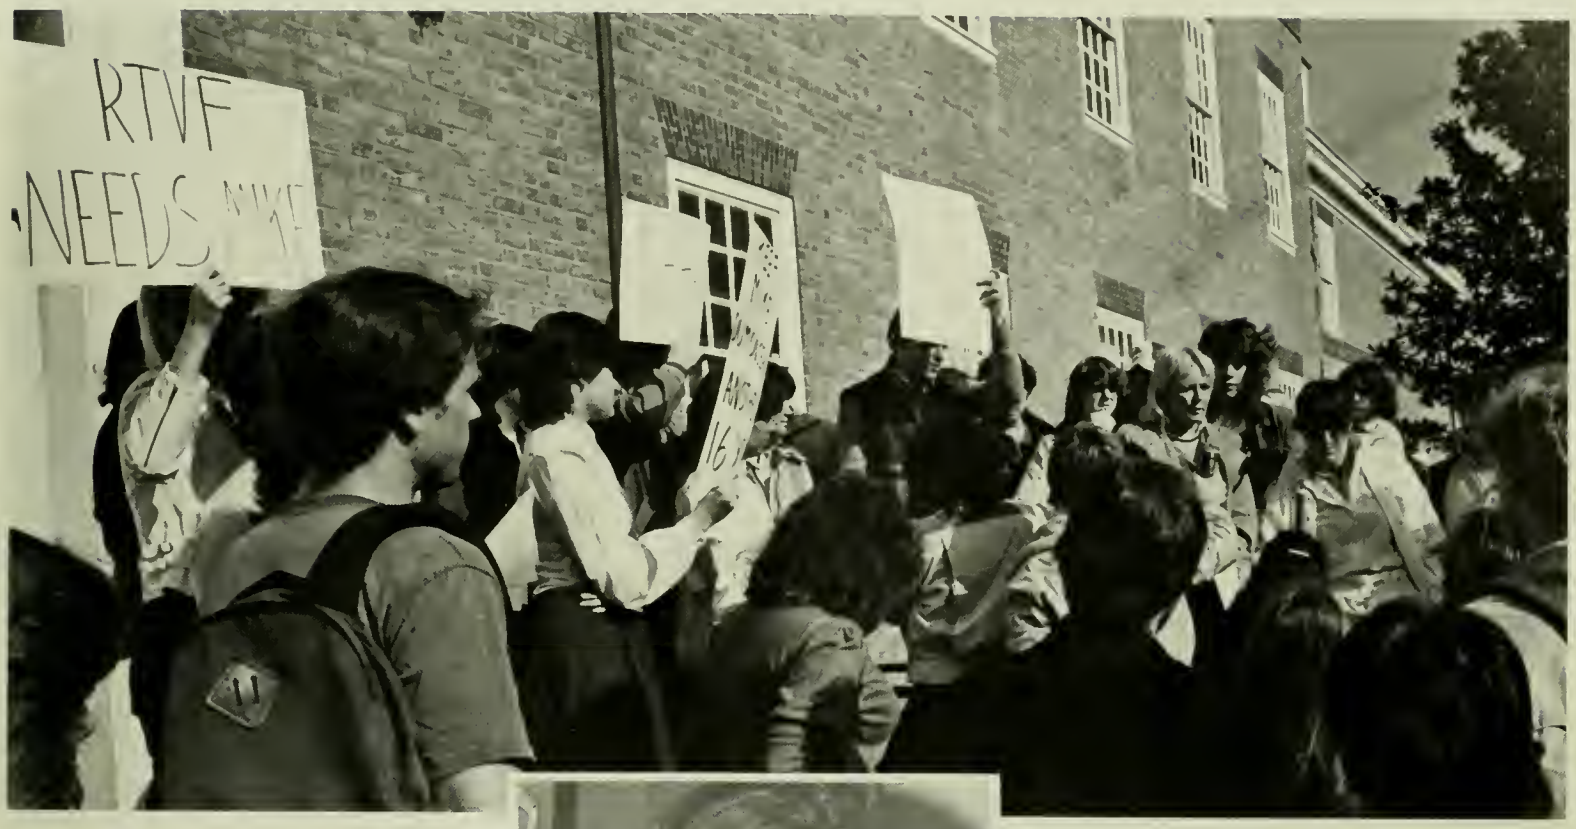
Dedication



. . . to the kind of spirit evidenced in the student support of the tenure application of Communication Arts and Theatre professor Michael duMonceau in the spring of 1983— it being proof positive that those who make a day-to-day commitment to helping others do not stand alone.

SAINT FRANCIS

Today's Heroes

It's been said that because we are Americans, we need heroes to show us the way. Right now, these writers and philosophers say, we are caught in a national climate of disillusions and skepticism.

People do seem to be waiting for the moment when the Golden Age of heroes will rise again, bringing with it peace.

The lesson to be learned is that we need not look to the past for the strength to find our Golden Age. We need only to look within ourselves for the courage and heroism each of us has, for that courage is needed to find peace.

And when, finally, we fully commit our ways to peace, we will all be today's heroes, willing to make personal sacrifices to build Our Golden Age.

"One man in a thousand, Soloman says,
will stick more close than a brother . . .

But the Thousandth Man will stand by
your side to the gallow's foot-and after . .

"What Do The Simple Folk Do?"

"Most often a hero has to look at a situation and choose the appropriate course of action in the very same instant. What makes him heroic is his vision, and how he demonstrates his commitment to that vision."

of an
entire nation.

In the days following the MASH finale, there were those who said it was "silly" that a mere television program had become so important to so many. Perhaps. But MASH at least touched people enough to cause them to care—and that's not such a silly idea at all.

The

was such
an event.

We're proud
to have

Everyone's Favorite: The Armory

Armory registration, the most talked about event during the first week of school, had a new appearance this year. The zoo-like atmosphere of yesteryear at each departmental booth was replaced by a snakeish-shaped creature: an enormously long, winding line of students waiting to talk to a vast network of computers as part of the new on-line registration process.

The Division Of Arts And Humanities

A variety of choice is the m.o. of the Division of Arts and Humanities. Courses range from foreign language to art to American History. A student concentrating here can also learn music, sculpture, and dance. Internships galore are available in the local area; graduating students pursue careers in law, bilingual businesses, marketing, and the media, to name a few.

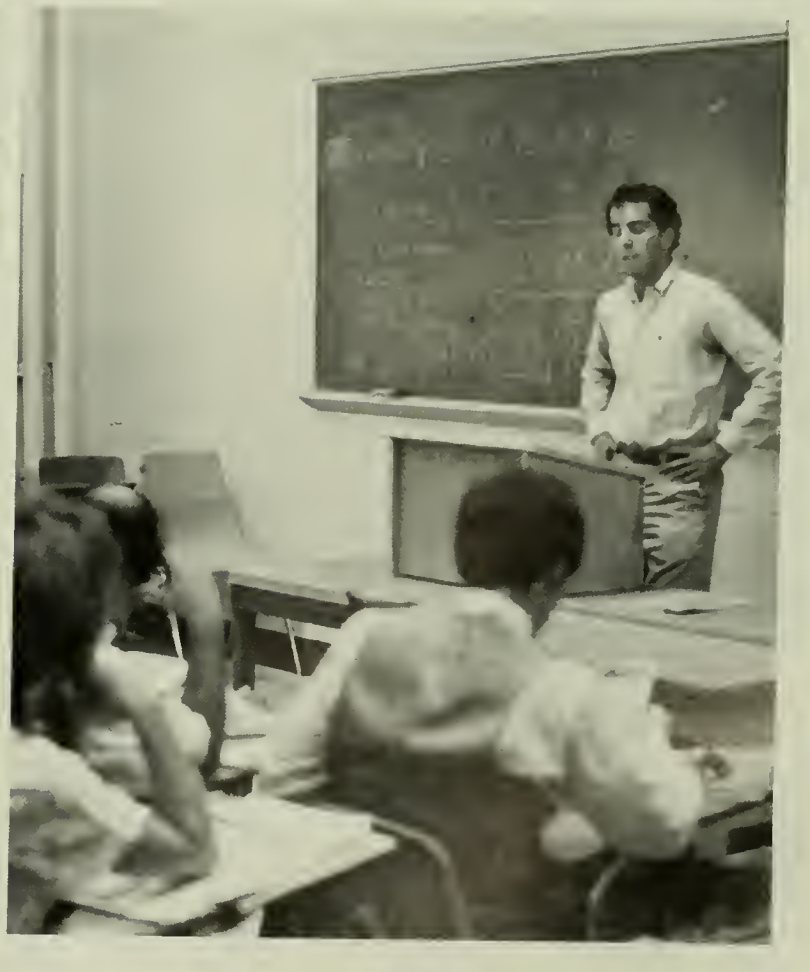
Division Of Agriculture And Life Sciences

The Division of Agriculture and Life Sciences provides a vast program for the student interested in the study of living orgasims and how they survive and interact with the environment.

The available courses of study include: agticultural and resource economics and agricultural engineering as well as the chemical and biological sciences. Most often, students involved in this division find jobs in the areas of medicine, dentistry and veterinary medicine.

Division Of Behavioral And Social Sciences

The Division of Behavioral and Social Sciences encompasses many majors including sociology, psychology and business. Most of the students in this division are in the College of Business and Management. Accounting and finance and marketing are among the business course topics offered. Students interested in this department find many opportunities despite the overflow of students in many courses.



Division Of Human And Community Resources

There is a broad spectrum of courses offered in the Human and Community Resources Division. Some community health classes such as sex education, drug and alcohol use and abuse, and weight reduction are favorites among students. Many Human Ecology courses are so much in demand that the department must restrict them to majors only.

Division Of Mathematical And Physical Sciences And Engineering

Divisional students here have the opportunity to take courses including Introductory Computer Programming, Physics of Music and Introduction to Astronomy. All departments of MPSE are involved with research which is primarily financed by the National Sciences Foundation, the National Aeronautic Space Association (N.A.S.A.), the Department of Energy, and the Office of Naval Research.

The Inauguration Of A Chancellor

Cap and gown abounded in May long before official graduation ceremonies when John Brooks Slaughter was inaugurated as the third chancellor of UMCP.

Focusing his inaugural address on moving his campus continually into the future, Chancellor Slaughter said he will strive for, among other things, higher retention of minority students and a balance towards teaching as well as research among faculty members.

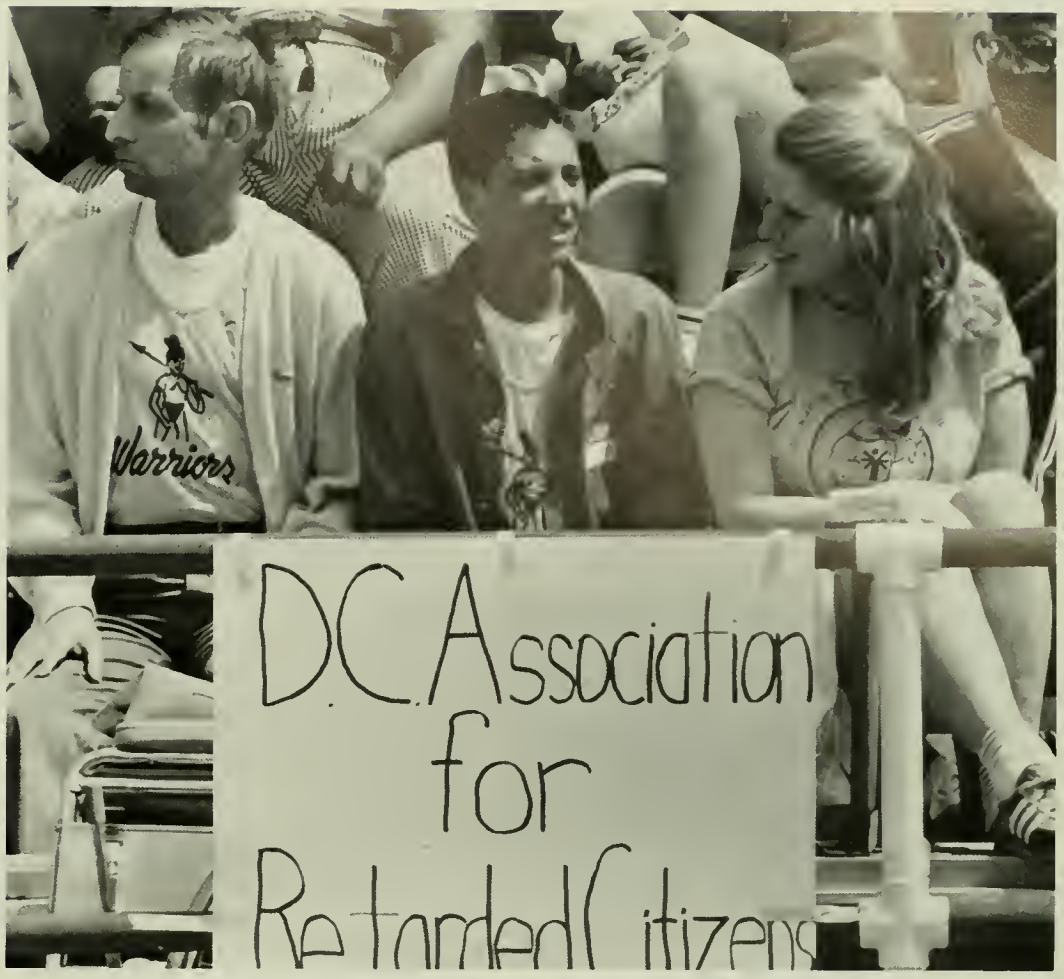
Special Olympics is an athletic and recreational event for mentally retarded citizens. TKE fraternity sponsors this event, which was held on May 5, 1983 with help from businesses in the College Park community. Track and field events fill a day which also includes games, magic shows, jugglers and clowns.



Aprilfest

Just when spring break has ended and you think there is nothing to look foward to comes five days of drinking, mixers and olympics. This event is sponsored by the dorms of North and South Hill. The events are exciting and the drinking is (almost) painless. There are free movies and free fun at one of the most exciting event on campus.

Brigadoon

Sure, an't' God, it was a delight, this University Theatre production of the story of two American hunters who become lost in the Scottish foothills and discover the spectral village of "Brigadoon," which awakens once every hundred years through a pact hammered out with The Lord. The play spoke to all of us when it said, "If you love someone enough, anything is possible." Hopefully, people were listening.

"You Can't Take It With You"

Ah, yes, the Vanderhofs and the Sycamores, brought so irresistibly to life by the University Theatre group this spring of '83. The show was as funny as the dickens, sentimental, and yet philosophical. Listen well, ye foolish youth, to Grandpa Vanderhof's simple philosophy in defense of the enjoyment of life. Bravo!

Hello Dolly!

It was big. It was brassy. It was wonderful. It was Stewart and Herman's "Hello Dolly!" presented on several different autumn nights by the University Theatre. The standard show business axiom advises that, come what may, "the show must go on," and the actors here displayed true grit by continually performing despite several injuries to the cast.

"The Miser"

Some of the faces were unfamiliar (namely New Yorkers Walt Witcover and Herman Arbeit as director and lead actor, respectively), but still "The Miser" held its audience rapt as it spun its tale of an old skinflint, two pairs of young lovers, several arranged marriages, and a hidden treasure.

Merit badges here to faculty member Tom Donahue for his set design and Diane Ferry for her imaginative lighting.

A banner year, to say the least. While the team itself finished second in the ACC Championships, four Terrapins took first place honors at the meet: Marita Walton in both the Shot Put and Discus, Carolyn Forde in the 3000m, Tomi Rucker in the long jump, and Sue Aurey in the javelin. All the women qualified for the NCAA Track and Field Championship; Walton collected her seventh All-American title.

Men's Outdoor Track

Fourth row (left to right) Head Coach Stan Pitts, Mike Pascuzzo, Richard Al Baginski, Steve Colvin, Dennis McSweeney, assistant coach Charles Torpey. Third row (left to right) Robert Dorsey, Scott Vrabell, Bill Smith, Chris McGorty, Lou Kertesz, Bill Butler. Second row (left to right) Joe David, Owille Gayle, Brian Garland, Dave Sanders, Raymond Oglesby, Louis Kertesz, Bill Butler. First row (left to right) Kevin Hughes, Robert Dickson, Keith Hudson, Greg Widenhouse, Chris Chattin.

The men's track team placed second in the IC4A Championships and fourth in the ACC Championships in 1983. Leading the team was Alan Baginski, who won individual honors in both tournaments in addition to being named All-American. Mike Pascuzzo (high jump 7-13/4), Greg Rowe (shot put 59' 2¼) and Bill Smith (decathlon 6,863 pts.) also earned individual titles throughout the season.

Please, reader, remember this: someone once said that we all spend about one-third of our lives being angry at someone or something; there's no reason to waste the other two-thirds being mad and depressed, too.

The Black Explosion

Minority students at the University didn't always have such a viable outlet in which they could voice the problems and concerns of the minority community.

It was not until the 70's that the outlet was provided. That outlet was the Black Explosion.

The Black Explosion is a bi-weekly publication which focuses on issues affecting the minority community on and off campus.

From The Terrapin Wire Service College Park, Md.— The Diamondback, the campus newspaper, this year was voted the number one college paper in the country. It earned the honor based upon "hard investigative" reporting. Appearing daily, The Diamondback complements its campus coverage with national wire service reports.

CALVERT MAGAZINE

THE MAGAZINE WITH THE POWER TO BEND MINDS

A quick glance at the *Calvert* envelopes the reader in a potpourri of poetry, fiction, and visual art written and prepared by the students, faculty and staff of the university.

Calvert, published twice annually, does, we're told, "welcome submissions from all humans on campus."

Editor Glenn Moomau

The Board of Directors, from left to right: Michael Fribush, General Manager; Barbara Hines; Susan Egerman; Crystal Williams, Glenn Moomau; Nancy French, Business Manager; Glenn Mosley, Gary Gately, and Tomu Parming. Not pictured: Ira Allen.

If during one's college career one chooses not to flex one's literary muscles in print, it is not the fault of Maryland Media Inc., that non-university aligned corporation which oversees five student publications: Calvert Magazine, The Mitzpeh, The Black Explosion, The Diamondback, and The Terrapin Yearbook.

WMUC AM 65 FM 88

College Park's Best: WMUC

1983 was the year WMUC AM and FM hit full stride. Smart programming and leadership brought WMUC-AM to the fore as an invaluable training ground for those learning the media, while FM 88.1 now stands as the only progressive radio station in the local market. WMUC also offers training in news, sports, promotions, sales, public affairs, and computer operations.

In Memoriam

"He was a great man and a talented and perceptive writer."
-Public Affairs school research associate Robert Pastor

Campus Spanish literature professor Angel Rama was killed near Mardrid in one of the world's ten worst airplane crashes on November 27.

Rama had taught here from 1979 until early 1983, but due to a visa battle with the federal Immigration and Naturalization Service (an unspecified "subversive" classification had been placed on his visa), the world reknowned author and literature critic was forced into a one-year sabbatical, denied his great love—teaching.

On November 20, millions of Americans sat transfixed in front of their television screens, horrified by the nuclear nightmare presented that evening by ABC television.

But even more disheartening than the mere thought of those fictional events actually occuring were the public debates which followed: "What are we going to do when the bomb is dropped?"

One would think that instead people would have said, "Well, there are a lot of reasons why the bomb might be dropped, but there's no reason why it HAS to."

"Mankind Must Put An End To War, Before War Puts An End To Mankind"

Twenty years after his brutal passing, the time has come to celebrate his life, not his death—to remember the man, not the myth.

Though to be today's heroes, we need not look for our strength in the past, the past (with all of its lessons) is something we dare not forget. Here, then, look back upon the U.M.C.P. of yore. First up: the College of Medicine, after the Civil War.

MILTON A. CANIFF

January
27th
1947

Dear Miss Chickering:

This will confirm
my selection of Miss Barbara Hargraves as
our traditional "Miss Terrapin" and I ho
that my message reached you in time to ma
the announcement at the Junior-Senior Pro

As I anticipated whe
consented to assist in this pleasant ta
I found it difficult to arrive at a final
decision when the photographs of the beau
ladies of the University of Maryland arri
in the mail.

I am returning the
photographs herewith and I certainly woul
enjoy seeing a copy of the TERRAPIN when
comes off the presses.

Cordially,

This university of our's is no fantasy land; it is a neat microcosm of the society it inhabits. It is, as society is, a unique blend of good and bad. While it offers students a multitude of opportunities, it also houses, for example, a theatre department which deprives students of learning experiences by casting teachers in stage productions; and though one may meet many different kinds of people here, one may also encounter tensions of race and creed. Yes, it is a very real place, this "University of Maryland."

But With A Little Work . . .

. . . You Can Always Right It Again

And now, a word from our sponsor . . .

Some brief words of thanks from ye olde kindly editor-in-chief to the yearbook staff, of course;

To Jeff, for spending all those absurd hours in the office with me; To Jon & Ann for believing;

To Mike for not locking me out, though he may have wanted to; and, most of all, To Susan Cheiken, whose mighty shoulder was there the day the ink spilled, and every day thereafter. Good luck and God bless.

Take care. Be seeing you.

TRY TELLING THESE PEOPLE THAT CANCER IS UNBEATABLE.

Everyone in this picture shares something in common. They've all had cancer, and are leading happy, normal lives.

Through progress in treatment, knowing the risks and early detection, over two million individuals have survived cancer.

But most people don't know that. They still think cancer is unbeatable.

A fact which over two million people would like to dispute.

How you live may save your life.

The New Sears keeps an old promise

There's much that's new at Sears these days, from dynamic developments in video products to casual clothes for the whole family from Levi Strauss.

But in one area we're as old fashioned as apple pie: **Satisfaction Guaranteed or Your Money Back,** a promise we've made for over half a century. To keep it we insist on quality from the start. Our buyers spend thousands of hours each year at factories making our products. Our engineers help manufacturers improve their efficiency. Our Laboratory tests over 10,000 items a year. The end result comes down to five simple words: **You Can Count on Sears.**

TABASCO sauce is made from a special variety of peppers taken from the fields red and juicy-ripe. They are then stored away in oak barrels and aged for years to mellow the fruit to its unique aroma and flavor. Finally, 100 grain vinegar is blended in to yield the genuine TABASCO sauce. This time-honored process has helped people with good taste flavor their food in the kitchen and on the table since 1868.

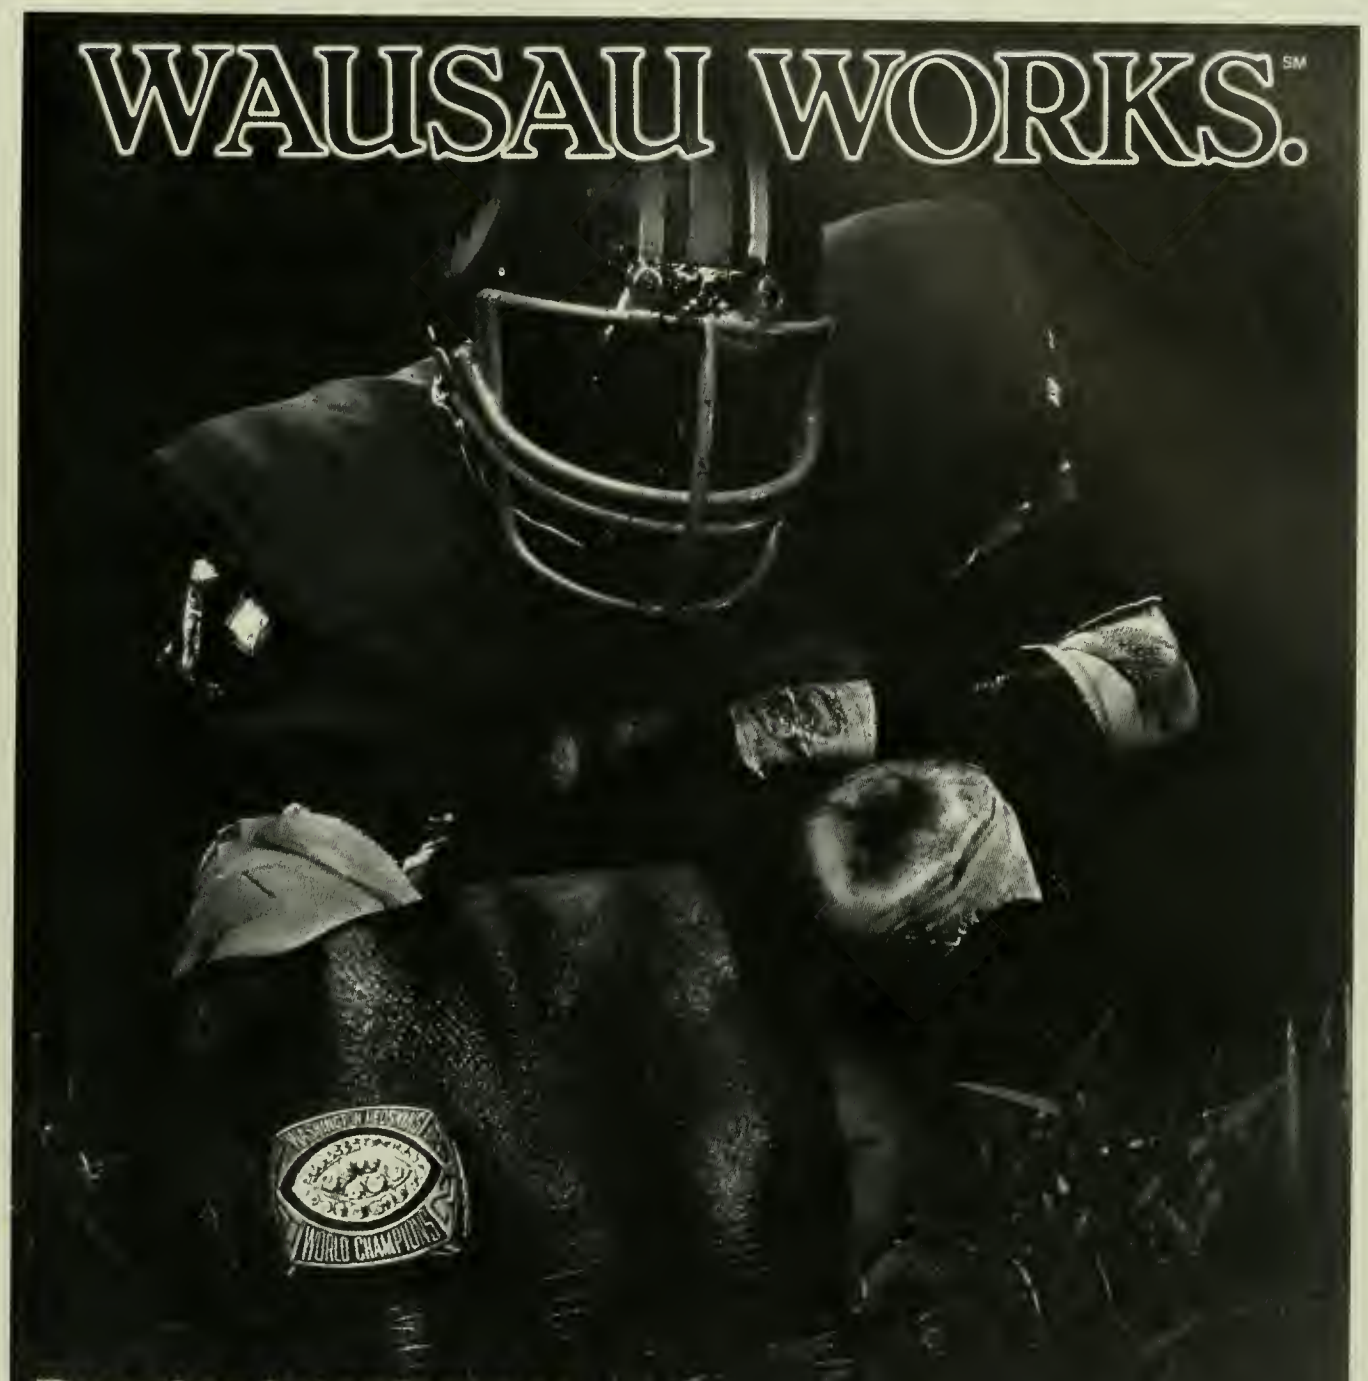
WAUSAU WORKS.℠



Running interference for the Jostens team.

Jostens, a leading manufacturer of recognition products, including official Super Bowl rings and 1984 Olympic medals, has grown consistently for 26 consecutive years, and now has facilities all across the U.S. and Canada. With over 6,000 employees. Yet it succeeds in administering all of its insurance and risk management programs with only two people, headed by Risk Manager Gerald Ciardelli.

Mr. Ciardelli provides some background. "We appointed Wausau back when it became apparent that we needed loss-prevention help in such areas as industrial hygiene and audiometric testing. And we knew Wausau had full-service offices near each of our manufacturing locations.

"Since then, I've been very pleased with the service Wausau has brought to us. When problems arise, they can be handled locally. And quickly. Anyone who has our emphasis on full service at the plant level would *have* to be pleased."

And *we're* pleased to be helping with Jostens' gains.
